

Corporate Identity

KAMARIDIS GLOBAL WIRE S.A. is one of the largest Greek Steel Industries, manufacturer of Roll-Formed Steel Sheets, Prefabricated Insulated and Architectural Polyurethane PUR INSOTHERM - PIR PIROTHERM PANELS and the latest and largest producer of Black & Galvanized Wire, Construction Nails and Wire Mesh in Greece. It was founded in 1976 as a trading company. In 1990 starts manufacturing formed steel products for the construction of steel fabricated buildings.

In 2003 starts producing at its ultramodern facilities Thermal Insulating Polyurethane Panels (PUR/PIR), Fire Resistant Panels (Rockwool) and Fire-Resistant Polyurethane Panels (new series of PIROTHERM) related to the manufacturing of Metallic and Insulated elements, for covering buildings, industrial cooling chambers and modern infrastructure. Specifically, the company produces and merchandise, Steel products for construction and any other product related to these ones (e.g. Purlins, Special Items, Ridges, Screws, etc.).

In 2009 the wire facilities have been founded and started the production of Nails and Black & Galvanized Wires. In 2014 the latest investment of our company starts its production of Wire (black) Mesh and Concrete Reinforcing. In 2015 the wire facilities and more specifically, the galvanizing line expanded to produce Galfan Wire (Zinc-Aluminum Wire) ISO 9001 certified.

The head offices and the production facilities of KAMARIDIS GLOBAL WIRE SA are located at the 4th, 5th and 6th km of the Old Thiva-Athens Highway, Greece, on a land of 140,000sq.m. and its facilities covering 50,000sq.m. in total. The facilities ensure compliance with all the safety and ergonomic requirements acc. to OHSAS 18001.

The production capacity of KAMARIDIS GLOBAL WIRE SA amounts to more than 70,000 tons annually resulting to the direct disposition of its products in Greek & International Markets.

KAMARIDIS GLOBAL WIRE S.A. Vision – Mission - Values

Vision:

Our vision is the Sustainable Forge of the Global Steel Products and Polyurethane Panels market.

Mission:

We currently develop, produce and supply Steel Products, Polyurethane Panels and Galvanized Wires worldwide.

Values:

1. Addressing Client Requirements acc. to ISO 9001
2. Focusing on Personnel acc. to OHSAS 18001
3. Bolding on Entrepreneurship
4. Always following the Law
5. Concerning the Environment acc. to ISO 14001
6. Helping Communities

Our Basic Products are the following:

Polyurethane Sandwich Panels (Frigo - PUR – PIR –Rockwool)

Galvanized Wires

Black Annealed Wires

Construction Nails

Roll Formed Metal Sheets

Translucent Sheets

Purlins

Beams

Wire Mesh

Hollow Sections

Concrete Reinforcing Steel

Merchant Bars

Tubes for Constructions

Composite Slabs

Wire Rod

Our production line can bear 15,000m² in one day

Ready products are packed in pallets with special safety packing

Our production line can bear 5,000 tons per month

Wire is packed in coils of 500 – 800kgs

Nails are packed in 5kg boxes or 25kg bags

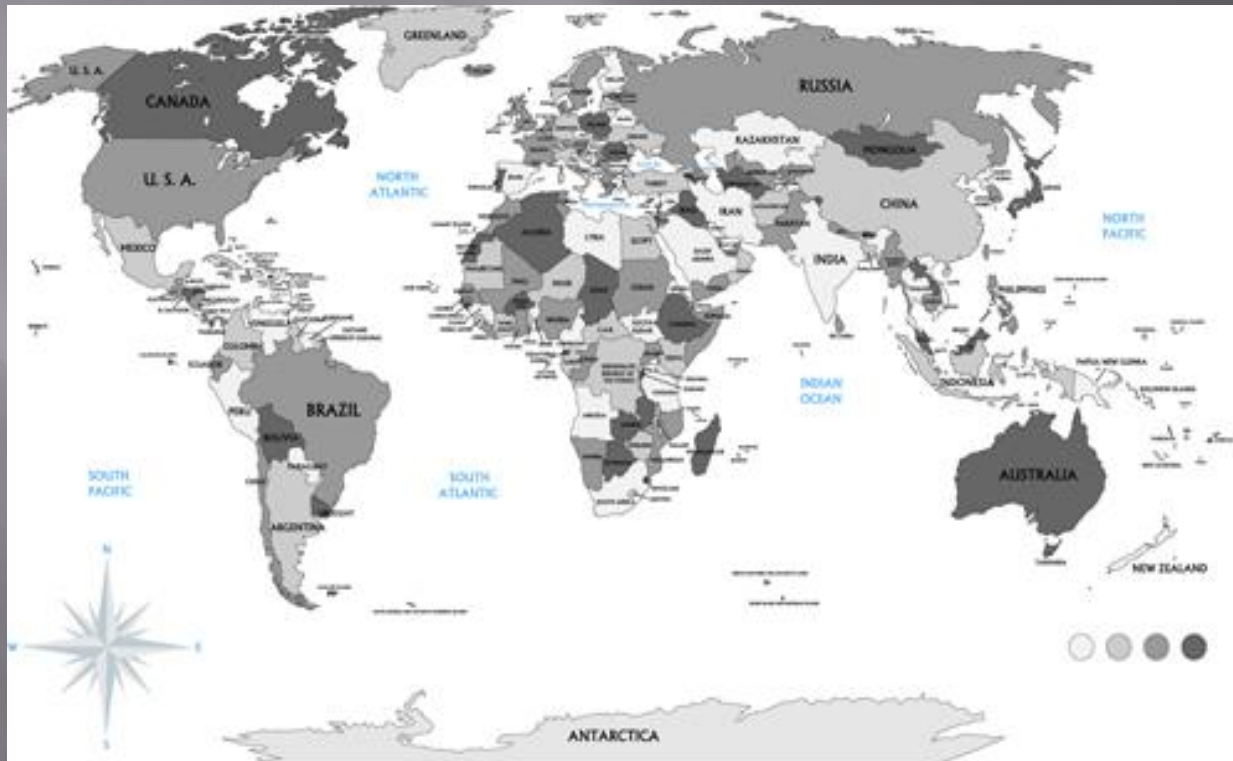

Our Products are ideal for:

- 🌐 Industrial Facilities and Warehouses
- 🌐 Cooling Chambers and Areas of constant temperature
- 🌐 Airports and Shelters
- 🌐 Prefabricated Constructions
- 🌐 Buildings for cattle and poultry breeding units
- 🌐 Exhibition areas and Trade buildings
- 🌐 Containers and Mobile sheds
- 🌐 Military establishment

KAMARIDIS GLOBAL WIRE S.A. over the past decade achieved recognition in the Greek and the International markets, with top quality products, promptness in delivery as well as reasonable pricing. Currently we are exporting 60% of manufactured products to 65 countries in all five continents, leading the company to levels which classifies it among the largest and henceforth strongest companies in Greece.

Europán SA was founded in 2017 after 10 years of faithful cooperation between Kamaridis GlobalWire - Greece and Frigopan - Bulgaria.

The Kamaridis GlobalWire group owns 80% of the shares and its goal is the expansion into new markets.

The investment exceeds 15.000.000€ and is strategically located for the company's plans in Tsaratsovo, Bulgaria.

In an area of 65 acres with the most modern facilities for Quality and Safety, Europán SA is the largest Panel Manufacturer in Europe.

Its object is the production of Polyurethane Panels and Mineral Wool Panels. Targeting the markets of Balkans and beyond, with the ability to produce up to 15,000 square meters per day in all modern and classic colors, it comes to meet even the most demanding requirements.

It is completing the most demanding projects with Special Items and Gutters made by the most Modern Machines.

With all the Quality and Safety Certificates, it guarantees the maximum quality of products in the shortest delivery time at the most competitive prices.
